Chocolate Frosting

Makes enough to frost an 8" layer cake or 18 cupcakes

2 ½ cups icing sugar

½ cup cocoa I used Dutch processed Bensedorp cocoa

1/3 cup butter, softened

¼ cup milk

1 teaspoon vanilla

THE STEPS:

- Place all ingredients in the bowl of your stand mixer and beat until fluffy and light

THE LOVE: Scrap the bowl several times during the beating process to make sure you don't end up with any streaks.
